**I am a customer of this company Tega Cay Water Service. This letter of protest is in reference to Docket
2012-177-WS**

2. Please give a concise statement of your protest * (This section must be completed. Attach additional information if necessary.) in Docket

We have already incurred at least two increases in the past couple of years for repairs to be made. What repairs if any was done and why is this increase necessary, is this a legitimate asking?

There have been many occasions where messages have been left on my answering machine saying it's no longer necessary to boil your water it's safe to consume. The problem is I never received the first alert to boil the water. And for this reason I started purchasing my drinking water and connected a filter to my kitchen faucet in hopes of not becoming ill and this is an extra cost for me.

I am retired and trying to survive on Social Security payments and with the cost of living rising along with all the other necessities this will be a heavy burden on me as head of my household. I am against any increase.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

No, I do not want to appear at a hearing. But if it becomes necessary I will.
